

PRESS RELEASE

October 2019

Japanparts Group announces the expansion of its logistics, together with important product launches

Japanparts Group announces the recent expansion of its warehouses at the Verona headquarters during Equip Auto 2019, Hall 1, Stand J 109. As a result of an ambitious strategic plan, the warehouse now extends on a total of 60,000 square meters of storage space, allowing the Group to consolidate its presence on the market, expanding the current assortment for an increasingly complete coverage of the circulating car park.

By the end of 2019 the new automatic warehouse will be also operative, with 60,000 mini-load boxes and 10,000 square meters, which will have a potential of approximately 3,600 withdrawal lines, to be added to the 12,000 lines that the company already handles daily.

Thanks to the expansion of its warehouse, Japanparts Group also decided for an important expansion of the product offer with Japanparts, Ashika and Japko brands, thus offering about 38,000 references. To be underlined, is the increasingly important presence of reference numbers for European cars, further confirming the company's desire to increasingly be a global player for its customers.

The great innovations introduced in the portfolio of products offered by Japanparts Group are represented by new air springs, electronically controlled shock absorbers, new complete suspension kits, the range of power lift gates, as well as filters for automatic transmissions and shock absorber strut mounts for all circulating cars.

Many innovations also among the European braking range; in chain kits, with over 200 new codes; in motor cylinder heads, with over 160 new codes. The ABS sensors and the EGR valves have also been recently added.

In support of the important increase in the product portfolio, Japanparts Group has created three leaflets with the Japanparts, Ashika and Japko brands, available in paper form or downloadable at the following address: <http://www.japanpartsgroup.com/splash/cataloghi.html>

To learn more about the new warehouse at the Verona headquarters, please watch the video: <https://www.youtube.com/watch?v=Wkl23o6I-4w>

 Three promotional leaflets for the year 2019 are displayed against a background of a network of grey dots and lines. The leftmost leaflet is for 'Japanparts' and features a yellow and black tractor. The middle leaflet is for 'Japko' and shows a red and white tractor. The rightmost leaflet is for 'Ashika' and depicts a red tractor with a large, stylized red bull head.	<p>The three leaflets with Japanparts, Ashika and Japko brands, showing the 2019 innovations of Japanparts Group</p>
 A photograph of a modern, multi-story office building with a curved facade and large glass windows. The building is situated in an open area with a clear blue sky. In the foreground, there are several tall flagpoles with flags for Japanparts, Ashika, and Japko. A paved road leads towards the building.	<p>The Japanparts Group headquarters in Verona</p>
